catzilla 4k - advanced

It's pretty good. Nothing that really sets it aside from others apart from an awesome movie, but nothing that makes it much worse than others. I'd reccomend it if you're looking for a broad spectrum of benchmarks for a graphics card review, or if you're looking for an advanced benchmark besides 3DMARK.. HWiNFO64 issue makes this useless for me. Until it gets fixed STAY AWAY! It used to be great.. Updated: now I can clear see I have advanced version for my 15 bucks. Such a shame with marketing start-up on the steam platform. LOL This is the first time I paid for FREE software! ROFL Not sure If I can get my

money back.. I'm a big catzilla.. Due to newer hardware today there are issues and will not run! Kernel error!. If its an older PC (AKA Retro fan rigs) it should work.. Crap. Doesn't run any more after update.
