### About This Game

When the parents are out, the whole house becomes a playground. But when a computer virus infects your 3D printer and starts mischief, it's up to you to defend the place you call home and turn your playground into a battlefield! Armed only with your cherished toys, you must face an ever-growing army of plastic and stop the virus before it takes over the world (or at least your bedroom, kitchen and basement)!

Experience a unique twist on the tower defence genre – work out the best strategy and place your defensive troops in levels full of interactive elements, then support them with a set of specialized weapons. Face off against enemies both on the ground and in the air through a series of ever more intense waves, culminating in a standoff with a giant boss.

#### Main Features:

- Tower defense gameplay with FPS elements
- Diverse choice of defensive troops
- Fully interactive environments
